

VOTE FOR A. FLOYD BYRD FOR CONGRESS

MT. STERLING ADVOCATE.

VOLUME XX

MT. STERLING, KENTUCKY, WEDNESDAY, NOVEMBER 2, 1910.

NUMBER 17

High Compliment.

Mr. J. D. Wakefield, in Sunday's Enquirer, paid the following high compliment to our fellow townsmen:

Robert H. Winn, of Mt. Sterling, the chairman of the Republican State Central Committee, spent a day or so this week at Republican State headquarters at Louisville. Judge H. Clay Howard, of Paris, is the Chairman of the Republican State Campaign Committee, but as Chairman of the State Central body Mr. Winn makes an occasional trip to Louisville to see how everything is progressing at the permanent State headquarters. He was in conference for several hours with Alvis S. Bennett, who is the Secretary of both the State Central and the State Campaign Committees. Mr. Winn, being a good Republican, is always optimistic over the prospects of his party to win. The Republican State Chairman, by the way, has reflected considerable credit on his party in this State. Mr. Winn is not only a lawyer of conspicuous ability, but he possesses an exceedingly attractive personality. He is popular throughout Central Kentucky, and is highly regarded by Republican leaders from every section of the State.

The Engagement of Miss Helen O'Rear Is Announced

At a dinner party given at the beautiful suburban home of Judge and Mrs. E. C. O'Rear, near Frankfort recently, the wedding of their charming daughter, Helen, to Ensign Richard Caswell Saufley, of the U. S. navy, was announced, the wedding to take place in the early spring.

Miss O'Rear is a beautiful girl and has many relatives and friends in this city; her old home, who will rejoice with her in her happiness.

Mr. Chenault Dearing to Wed

The engagement of Miss Margaret Swearingen Dearing, of Louisville, to Mr. Anderson Chenault, Dearing, of the same city, has been announced, the wedding to take place Wednesday, Nov. 16th.

Mr. Dearing is the son of Judge W. G. Dearing, of Louisville. He has many relatives and friends in this county who will be interested in his approaching wedding.

Protracted Meeting.

Rev. E. E. Dawson will begin a protracted meeting at Kiddville Schoolhouse Thursday night. Everybody invited.

TALK SIX.

There are lots of men so busy that even when they have time the newspaper is spread out before 'em. You'd fancy that a man so tremendously busy as all that would never think to insure his life.

That's the very man who holds a policy.

More than that—He holds the Best Policy in the Country.

No, he isn't too busy to do much talking. But he isn't too busy to think! No, working men don't have time for his life, but the more of a thinker he is, the more parts other has he been that the policy is one which will never oblige him to pay any more attention to its mortalities.

Life insurance is one of the principal THINGS we hold. And you'll admit that most men never hold it long enough as now, never wanted so much for their money, never ferreted into things as deeply as they do now. At the moment when they're about to insure the insurance question is settled—they employ in living. They leave the insurance-without-down to catch up what time they have lost in getting new business in the world of, "This is the kind of insurance Hoffman talks about."

Child Seriously Injured.

Little Ollie Caywood, eighteen-months-old, daughter of Mr. and Mrs. Gano Caywood, of this county, was playing on a table last Wednesday, when she suddenly fell to the floor. Her head struck heavily and a nerve in the back of her head was effected, causing the sight of the left eye to be destroyed. The little one was hurriedly picked up and brought to this city, where an examination of her injuries was made. Dr. Reynolds the eye specialist, after the examination, announced the eye permanently injured and the sight forever gone, but said that he did not think it would effect the child's appearance.

Heavy Cattle Sold.

Mr. Norris, cattle buyer, was here last week, and made many purchases, among them 350 head of James M. Bigstaff, average weight, 1,500 pounds, at 6 cents; 150 of J. T. Highland, average weight, 1,400 pounds, at 6 cents, and 99 of Henry C. Hall, average weight, 1,450 pounds, at 6 cents. These cattle were bought for the Baltimore market, as were all the cattle Norris purchased. Mr. W. B. Greene purchased of Bert F. Murk 40 cattle, average 1,400 pounds, at the prevailing prices. There are yet about 1,000 cattle for the export market unsold in the county.

Big Strike On.

More than 10,000 express employees are now on strike in New York and vicinity. There was much disorder Monday and police men guarded 315 wagons. The strikers will protest to Mayor Gaynor against the police guard and it is said that the local unions have arranged a meeting for today to discuss the advisability of calling a general strike of "everything on wheels in the city" affiliated with the unions, excepting railroads.

Byrd By 1,000 or More.

The editor of this paper had a talk with a gentleman the other day, who is known as a non-partisan, and he said there could be no question about the election of Mr. Byrd.

He thinks, indeed, he says, he believes that Mr. Byrd will beat Mr. Langley at least 1,000 votes. He says the people are simply wild for Mr. Byrd. — Hazel Green Herald.

Pass Pharmacist Examination.

At a recent meeting of the Kentucky Board of Pharmacy held in Winchester, A. Tabb Bassett and Gilbert Satterwhite passed the Assistant Pharmacists examination. This is quite a compliment to both young men and we are glad to note the progress they are making in their chosen profession.

The Mt. Sterling boys were simply outclassed, their opponents outweighing them about 30 pounds to the man. The three Greene boys played the best game for the local school.

Delightful German.

The German given Monday night at McKeith's Hall by the Assembly Cotillion Club was one of the most enjoyable affairs of the fall season.

During the enjoyable hours an elegant course lunch was served. The punch bowl, which was in the vestibule, was presided over by Misses Laura Williams and Gladys Samuels. The following out-of-town guests were present:

Mrs. Elva Cadett and R. C. Cadett, of Owingsville; Mrs. Jesse Turney, of Paris; Mrs. Clark Bascom, of Millersburg; Mrs. Henry M. Bosworth, of Lexington, and Miss Nelson, of Fort Scott, Kansas.

Workman Painfully Injured at Star Plowing Mill.

Lloyd Willoughby, while at work last Friday at the Star Plowing Mill, got his left hand caught in the machinery in some manner and it was badly mashed and mangled before he could be released. Dr. W. Importance of the Study of Forestry.

The State Federation of Women's Clubs has interesting outlines for courses of study in forestry for use in schools or Women's Clubs.

The importance of the study of forestry is well illustrated in the Proclamation by President Roosevelt while in office to the school children of the United States.

"Arbor Day" (which means simply "Today") is now observed in every State in our Union and mainly in the schools.

It is well that you should celebrate your "Arbor Day" thoughtfully for in your lifetime the Nation's need of trees will become serious.

If you neglect to prepare yourselves now for the duties and responsibilities which fall upon you later, if you do not learn the things you will need to know when your school days are over, you will suffer the consequences. So any nation which in its youth lives only for the day, reaps without sowing, and consumes without husbanding must expect the penalty of the prodigal whose labor could with difficulty find him the means of life.

A true forest is not merely a storehouse full of wood, and at the same time a reservoir of water. When you help to preserve our forest or plant new ones you are acting the part of good citizens. The value of forestry deserves, therefore, to be taught in the schools, which aim to make good citizens of you. If your Arbor Day exercises help you to realize what benefits each one of you receive from the forests and how by your assistance these benefits may continue, they will serve a good end.

Store Robbed

The store of J. W. Thompson on Locust street was broken into and a large amount of meat, meal and provisions taken from it last Friday night by an unknown party or parties. A Godsend.

An esteemed German who draws a well earned salary from the city of New York, says the Sun, was talking about a case of sudden death the other day. "It was an accident. It was nobody's fault. It was a vegetable beat from a clear sky. All this had impressed the German deeply. 'Y,' he said awesomely, 'it vass a regular Godsend."

Largest Rose Tree.
Germans claim to possess the largest rose tree in Europe. It is found in Herr Wenzel's garden at Freiburg. It extends 15 feet in the top and forms a spacious bower. Originally it was a wild rose, on which a Chromatella tea rose was grafted in 1881.

DEMOCRATIC TICKET

FOR CONGRESS
A. FLOYD BYRD
Or Clark County

ANNOUNCEMENT

We are authorized to announce

KELLAR GREENE

as a candidate for County Court Clerk of Montgomery county, subject to the action
of the Democratic party.

OUR GREAT RESPONSIBILITY

On next Tuesday will be chosen our Representatives in Congress, and upon the issues of this Nation rests that great responsibility. We are optimistic enough to believe they fully realize and are equal to the emergency. From every quarter comes the glad news of Democratic victories and Democratic gains, and a Democratic House of Representatives is almost a certainty. That responsibility rests no greater on the voters of Jos. G. Cannon's district, than upon the voters of our own, wherein lives his faithful servant and obedient supporter, Mr. Jos. W. Langley. Every voter must view with shame the humiliating comparison in this month's Everybody's Magazine. Under the lead "The following Congressman voted for the people." The name of our Congressman is missing, but in the column "System Republicans who supported Cannonism and the roll-call found on the side of privilege" the names of Kentucky's three Republican Congressmen: Edwards, Bennett and Langley appeared.

HON. A. FLOYD BYRD

As a worthy successor to Mr. Langley, who has been tried and found unfaithful to the people's trust, the Democratic Party presents an honest, incorruptible and capable man, Hon. A. Floyd Byrd. Every honest man in this District should remember that in times when it took men of courage, capacity and honor to stand upon the side of right, he was found ready ever to do his full duty as a public official.

Voters of the Tenth Congressional District, we urge you to judge the future by the past. Be no longer deceived by false promises, but send to Washington as your Representative a man to represent you, not privilege, and this you can accomplish only by voting the straight DEMOCRATIC TICKET.

Indications are that after November 8th New York will be a part of Dix-ey land.

AN AWKWARD EVASION.

H. P. Bryson, Chairman of the Finance Bureau of the Republican Campaign Committee, has been busily engaged for some weeks so soliciting campaign contributions from post office officials, revenue men, etc. It is against the law for a Federal Official to do this. Mr. Bryson being Postmaster at Carlisle, Ky., resigned on September 13, and his wife was appointed "Acting Postmaster." After the election, Mr. Bryson will be re-appointed. Did you ever see anything more clumsy?

If anyone doubts that it "pays to advertise," he has but to consult Dr. or Mrs. J. C. Wallace, of Cleveland, Ohio. They were married recently, and as a joke an advertisement was placed in the papers of Wheeling, W. Va., in the physician's name, "Cats wanted at McMurdo Hotel, for dissecting purposes." When the happy couple arrived, it took a dozen police to keep the mob of over three hundred people with cats in baskets and sacks out of the hotel.

We congratulate Senator J. W. Newman, Secretary Kentucky State Fair, upon his selection by the U. S. Government to superintend the establishment of grounds and buildings for the National Fair to be held in Porto Rico, beginning March 1 next.

DEMOCRATIC NOMINEE FOR CLERK.

No one having entered the race for the Democratic nomination for County Court Clerk against Mr. Kellar Greene he will be declared the Nominee, and his name certified as such required by law.

Have you found your gate yet?

Why Not.

Do You Gamble?

Some people do by spending their time and labor and money by housing a crop of hay, oats and other farm produce, and keeping thousands of dollars invested in live stock housed in barns, and gamble with themselves that it will not burn. DO YOU?

Other people place their savings in a home and handsome furniture and then gamble on their luck that it will not burn. DO YOU?

Still others invest thousands in factories, mills, warehouses and other things subject to fire, and think they can, by careful watching, prevent a fire. DO YOU?

To all persons gambling with themselves against loss by fire, wind or tornado, we would suggest you give the matter careful consideration. Can you afford to take chances of losing part or all of your accumulations for a lifetime by gambling on your luck? We think not. See us before it is too late, and do not gamble with yourself.

AMERICAN WOMEN ON TOUR

They Invade Europe in Large Bands
Almost Frightening Foreigners
into Fits.

American women go on trips not only alone, or in small companies, but in large bands. During the last few years large assemblies of unmarried women, grotesquely denominated Kentucky belles, or Jersey beauties, or Kansas peaches, have traversed Europe in a constant sum of newspaper notoriety. Sometimes a voting contest under journalistic auspices has chosen them as the most popular young ladies of their own or state. Sometimes the enthusiastic suffrage of male admirers displayed through coupons purchased with cigarettes or breakfast foods has picked them.

They hurry through Europe, seeing London in three days and Paris in two, while anxious readers at home are, by the cable, kept in daily touch with their impressions. On the continent especially the ardent and tumultuous youth of the Latin races gather, almost in mobs, at the stations to welcome—and inspect—the examples of the famous American girl. Judgment is often favorable, but there was once a horrid scene at an Italian station where a number of singularly plain "peaches" were actually hissed by a mob of furious and disappointed young gentlemen.

So fantastic do such episodes seem to the foreign mind that legends about them grow apace abroad. For example, one friend of the author—in whom he hastens to say he puts no trust whatever—maintains that on the Lake of Como he saw a band of 200 American widows traveling together in crepe veils!—Delineator.

TOO BAD

Kind Old Man—Can't you afford to wear better clothes than those?
Beggar (forgetting himself)—
Sure! These here just my professional duds.

SAFETY IN AERIAL TRAVEL.

Eventually, I believe, travel will be safe in the air as with the auto on land. We are gaining greater control over the air craft every day. Air travel will be extremely popular, too, for you will never be troubled with bad roads and you will be in no danger of collisions. I believe that the monoplane will reach the practical stage before long. With a perfect motor to develop greater horsepower, the length of the flight will only be limited by the lifting power of the machine, and the larger the aerial surface resisted the greater will be the lifting power. It is only a question of time before the perfect aeroplane motor will be found.—Columbian Magazine.

GIVING BOILED WATER SPARKLE

Many times, especially at this time of year, the physician feels compelled to order that the drinking water in the house be boiled before using, since it is unsafe to use it otherwise; but boiled water seems so flat and tasteless that people are apt to dislike it exceedingly.

If such water, after it is boiled, is cooled in a refrigerator, and then shaken up in a bottle half filled, it will be aerated, or filled with air and will have the fine, fresh, sparkling appearance of water newly drawn from the well.

OH, BOTHER THE PARENTS!

EXPERIMENTS IN FEATHERS

Moltin Process With the Domestic Fowl Continues Longer Than is Generally Supposed.

It is variously asserted that the time required for the growth of a body feather on a healthy fowl is approximately 42 days, while the time needed to develop the tail is somewhat longer. This refers to plucked feathers. The usual molting period of a hen cannot, however, be accurately calculated from this estimate. In the experiment under consideration the average time of complete molting in the six flocks, containing at the end of the molting season 215 hens, was 95 days. The average time required to complete the molt of the three-year-olds was nearly 101 days; of the two-year-olds, 82 days. The starved one-year-olds averaged to molt more quickly by 30 days than did the flocks; the starved two-year-olds were little affected, while the starved three-year-olds averaged to molt 40 days longer in molting than did the fed birds. The average time required to complete the molt of the three starved flocks was 93.8 days; of the three fed flocks, 93.4 days.

All this would indicate that the molt process continues much longer than is usually supposed and that there is considerable variation in the time of beginning the molt between different individuals and between flocks of different ages, also wide variation in the length of time it requires individuals to complete the molt. One is further impressed with the fact that, so far as his experiment is concerned, the method of feeding did not materially alter the normal conditions of molting, except with the one-year-old flocks.

THE TIME TO GIVE IT

Do you think a man should give away his money before death? He—Sometimes—if a daughter in law—says, "Money or your life."

PRESERVING MEAT.

A dry-air process of preserving meat seems to promise to supersede cold freezing and the chilling methods. Recent experiments at Melbourne, Australia, brought auspicious results. The period of treatment is about fourteen hours, during which carcasses of sheep and lambs, etc., as quickly as possible, were placed in bags and hung in chambers from the rear of which all moisture was taken. It was then sent to Melbourne, N. Z., in the ordinary refrigerated hatch on the deck of the vessel, and after a voyage of 15 days was sound, sweet and hard. The inventor claims that sheep can be reared at a cost of one cent each.

PHILOSOPHICAL REFLECTION.

One reason why we grow more gentle with age—when we do—is that the years themselves bring authority to whom authority belongs, and the need of reverence is lessened. The young, when they strive to make their will prevail, have need to use force enough to offset the weight of years that is opposed to them. That weight, their elders have at their backs to aid them in getting their way.

Another reason is that in age we want fewer things, and want them less, and want what we do want less for ourselves and more for the next generation.—Life.

ITS STATUS.

He—Well, my dear, what do you think of this apartment?

She—I think it just a suite thing.

POCKET KNIFE

Aids James W. Hackett to Break Jail at Frankfort.

Carved his way to liberty with a pocket knife. That is what James W. Hackett did last week at Frankfort. He was confined in the Franklin county jail and under indictment on the charge of horse stealing. He was the only prisoner left on the second floor of the jail when he and his wife did all the escape work by himself. The bar that holds the iron grated door at the head of the stairway is held in place by bolts that can be run through the wooden partition. Hackett took his pocket knife and dug the wood from around the head of these bolts and then pried the top part of the door open wide enough to permit him to go through. When he reached the jail office on the first floor he found the outer door locked. This door has two long panes of glass in it and he used his knife again to carefully and noiselessly take one of the panes out. He crawled through this narrow opening and left for parts unknown.

Hackett left the following letter to John Lucas, stuck in his cell door:

"Well, John, I guess you will be surprised when you call me for breakfast in the morning. I hate to treat you so, but I have to go. I haven't got a dollar on earth to pay my lawyer with, to get my witnesses here for my trial, and if I don't get them here they will send me to the pen, and I am no guilty of the crime. If I was I would plead guilty and go with the least limit. Now, John, don't think hard of me, for I like you as well as any man I know, but you know that I haven't got any chance to come clear unless I get some money. Now you need it, and I don't put out any record for me, for I will come back just as soon as I get everything straightened out and you will save your money if they catch me, but I don't think they will do that, (or I won't be) in the State when the sun goes down tomorrow. I will write you right away, but I shan't tell you where I am at. I thank you and your pa for the kindness you have shown me while I was with you, and furthermore I will always remain your faithful friend. Good night." JAMES W. HACKETT.

"John, get some one to fix this place (meaning the door and the glass) and I will send you the money."

BLACK MAN

To Be Made An Assistant Attorney General.

In a final effort to bring into line the negro voters in Indiana, Ohio and New York, President Taft has decided to appoint a negro, William Lewis, of Boston, as one of the Assistant Attorneys General of the Department of Justice. There are five such places, each paying \$5,000 annually. Reports from the three States are to the effect that this year the negro voter is not as enthusiastic in line for the ticket as he has been heretofore.

There have been numerous negro meetings in several States as well as in the District of Columbia, in which resolutions were drawn against the Administration. Commencing with the attitude of the Republican national convention in 1908, the negro has received practically nothing from the Republican party and especially among the Republicans of the South has it been heralded that the Republican party was to be made a "white man's party."

A ROOSEVELT FIND.

Now that the G. O. P. finds itself in the worst possible shape, the President decides to dole out a big office to the nigger in the hope that all of them can be brought in line. Lewis is the assistant to the District Attorney in Boston. He was appointed by Roosevelt. The Colonel, when President, heard of Lewis' prowess as a foot ball player and general prominence as an athlete. Lewis was then a student at Harvard. About the same time the President was appointing negroes to offices in the South, and concluded it would be a stroke of non-sectionalism and would allay criticism to pick up some negro and give him a northern berth. Lewis, with his Jackson proclivities, strongly appealed to him, and was made Assistant District Attorney. It was reported at the time that he was invited by Roosevelt to be a White House guest for a few days, but following shortly after the Booker Washington dinner, which caused such a rumpus, it could not be confirmed, and so far as known, the invitation was withdrawn.

Please Look at your Date.

Subscribers will confer great favor by promptly renewing without making it necessary for us to send out statements. Postage is quite an item of expense where a number of subscribers are involved. There is not much margin of profit in publishing a country weekly paper at only \$1.00 a year; in fact most weekly papers are getting \$1.50 to \$2.00 per year.

We, therefore, will highly appreciate promptness in renewing and remitting for past due subscriptions. The date following your name on the wrapper or on the margin of the first page of your paper indicates the time to which your subscription has been paid. For instance: "Jan 11" means that your subscription is paid to the first day of January, 1911, and "Jan 10" means that you owe for the paper from the first day of January, 1910; and so with any month or date that may follow your name.

Prompt attention to this matter will be highly appreciated.

Look at your date now; and if behind, please remit amount due.
